To the PUBLIC, New-York, Oct. 16, 1766

It is now upwards of six Years that I have published a weekly News Paper, under the Title of the *New-York Gazette or Weekly Post-Boy*, which I have the Pleasure to think has been generally acceptable, and publicly useful: But having now Occasion to alter the Title of my Paper, I hope for the same favourable Reception of the NEW-YORK JOURNAL or GENERAL ADVERTISER, that my Paper met with under the former Title; since it will be conducted with the same Spirit, and to the same Ends,—the Suppression of Evil, and the Promotion of public and private Happiness. The Reasons of altering my Title are these, 1st, for the Sake of Distinction, as I am inform'd Mr. PARKER intends to publish a Paper under the former Title; and 2d, because, as he formerly publish'd a Paper under that Title, I would not avail myself of any Advantages from a Name originally assumed by him. The Number, for the Sake of more easily settling with my Customers, will run regularly on from my last Week's Paper.

JOHN HOLT.

L O N D O N, March 10.

It is said that the Great Patriot intends to use his interest to have a law made, that no pensions shall for the future be granted either on the English or Irish establishments, but to such as shall merit the same by some signal service to their country, and, even then, that they shall not be given without the consent of Parliament; that such as have small fortunes and large families, are to be principally considered; those who have made ample or overgrown fortunes to be entirely excluded, as they ought to be contented with the honour of serving their country, and the emoluments of their office while in employment.

We hear the changes are all over;—The gentleman who was expected to take the lead in the intended resignations is satisfied; in consequence of which there are content with their present situation.

The authenticity of the truth contained in the following extract of a letter from a gentleman, now on his travels in Italy, to his friend in London, may be depended on. "The poor of Rome are at present in great need, as well as the ecclesiastical state, for want of corn, which furnishes continual occasions to the well disposed to exert their charity; which, to do the Romans justice, they are not wanting in; but the good people of Perugia have surpassed all, who following the noble example of their bishop, who first sold his own coaches, horses, plate, &c. and even pawned the church plate also, to buy corn for the poor, was followed by the whole body of the people of fashion, every one selling or pledging their most valuable effects; and the ladies

giving up even their jewels, &c. all to supply the publick wants; by which means they have saved the whole people from starving, and rendered themselves immortal, by an action that would have done the greatest honour even to antient Rome itself.

It is reported, that a great man in the administration has strongly enforced the expediency of Great-Britain's maintaining the Corsican nation in their independency, and that even the Ministers of two foreign powers have made some late applications to our Court in their favour.

Extract of a letter from Lisbon.

"In my last I acquainted you with the publication of a pamphlet against the Papal supremacy which made much noise and greatly disturbed the clergy; since that time, political and commercial matters have been more immediately the objects of our attention, and it is generally believed that a rupture between England and Portugal cannot now be avoided, as the Portuguese Ministry reject with implacable obstinacy, all the memorials of Mr. Hay, who had several conferences with them within these few days, but which have no way tended to bring matters to a speedy conclusion. Several English merchants are preparing to leave this place with their families, and will embark the first opportunity for England."

According to some private letters from Genoa, the Republic wearied out with maintaining an expensive war against Corsica, had been induced to listen to certain propositions from the Court of Versailles, which it was thought would terminate in the entire cession of that island to the French King.

They write from Leghorn, that General Paoli had issued an edict, prohibiting the Corsicans from hoisting either at sea or in any of the harbours of that island, Genoese colours.

A letter from Venice, dated February 10, says, "The Inquisition is just reduced to very narrow limits in the states of this republic. The number of members of this tribunal being diminished, there are none of them to be met with but in some of the principal cities. The Court of Rome seems sensible of this; but we know not what answer hath been made thereto."

They write from Toulon, that an order had been received from Court, for equipping several frigates of war and bomb-ketches, and it was reported, the object of their destination was to assist the Genoese, in the entire reduction of the fortified sea ports occupied by the malecontents, in the island of Corsica.

March 14. It is said to be the interest of the British nation, not to suffer any foreign power whatever to succeed in the attempt to destroy Algiers.

It is confidently reported, that two powerful Protestant Princes have agreed to support the Corsicans in their Liberty and Independence, by assisting them with a numerous Body of Forces, should Affairs so require.

Extract of a Letter from Durham, March 26.

"Last Week a terrible Accident happened at a Colliery near Patefield, in this County. The Pits were eighty Fathom deep; and on Friday Morning last, when all the Hands were below at work, it took Fire and went off with a great Explosion, by which 39 Persons lost their Lives. Most of their Bodies are got up, but in such a mangled Manner as would shock any body: They have an uncommon Stench, and some of their Bones were crushed as if pounded in a Mortar, yet had the Skin not broke in any Place. The Owners are now giving 20l. Premium per Man; and so great is the Necessity of the Poor, and the tempting Bait, they are already nearly supplied. It's remarkable that the same Colliery blew up between 30 and 40 Years ago; by which about eighty Persons were killed."

It is now confidently given out, that the great man, whose resignation was lately published in the News Papers, has repented his humiliating condescension to the noble guide, and has once more resumed his purpose of retiring.

The GHOST, A T A L E.

FAR in the West there liv'd of old,  
An honest Yeoman, rich and bold,  
Merry his Heart as Heart could be,  
His soul quite open, gen'rous, free,  
Hearty he was in all he spoke,  
And no Man better lov'd a Joke,  
It happen'd at a certain Time,  
'Twas of the Year the very Prime,  
His blooming Neice thought fit to wed,  
And Love and Hymen crown'd the Bed;  
To grace their Nuptials he prepar'd  
A Feast,—and all his Friends appear'd;  
Among the Rest a Youth from Town,  
Much to his Uncles Joy came down,  
He came an unexpected Guest,  
Yet not less welcome than the rest;  
But to the good Man's great Chagrin,  
He'd ne'er a Bed to put him in,  
But one, and that he knew for Truth  
Was haunted,—so inform'd the Youth,  
But he whose Breast with Courage glow'd,  
Not the least Kind of Terror show'd,  
Reply'd—these Tales my Bosom fire,  
And such a Room I much desire.  
The Guests broke up, the Servant Maid  
To warm the Bed went much afraid,  
And often ching'd her rosy Hue,  
As Fancy tip'd the Flank with blue.  
The Youth undress'd,—was cover'd o'er,  
And wearied,—soon began to snore;  
But slept not long,—at dead of Night,  
The creaking Door proclaim'd the Sprite;  
Rous'd with the Noise, yet void of Fear,  
He saw a Female Ghost appear,  
But as she stalk'd around the Room,  
He would not trust the doubtful Gloom,  
For then the Taper's dying Light,  
Could not assure him he was right:  
Conquer'd at last he hid his head,  
The Spectre straitway sought the Bed,  
Rais'd up the Cloaths, and by his Side,  
Lay down like any loving Bride;  
He thought the Guest now much too near,  
So crept to t'other Side for fear;  
But lying still—he soon perceiv'd  
It was no Ghost, he found the breath'd;  
Then banishing all Fear of Harm  
He seiz'd her hand and found it warm,  
Took off her Ring, but nought beside  
He touch'd, or else the Youth's bely'd.  
She started up, and as before,  
Thrice walk'd the Room then shut the Door.

No sooner did the Morn appear,  
Than all were met the Youth to hear,  
Expecting that he would recite,  
The dreadful Visions of the Night.  
The modest Youth then bowing low,  
Begg'd of th' assembled Fair to know,  
Which of them all a Ring had lost,  
With Di'monds set; a Ring of Cost;  
The Yeoman's Daughter glad to gain,  
What she much valu'd once again,  
Replied 'tis mine,—then you my Dear  
Was the kind Ghost that did appear;  
The Secret I'll no longer keep;  
But what you did, was done asleep.  
Then told the Story to them all,  
And Mirth and Laughter shook the Hall.

The Father pleas'd, by Becket's Head  
Swore, he that Night with her should bed;  
For, faith my Friends, I think it Right,  
She went to Bed to him last Night,  
A Thousand Pounds my Daughter's Portion,  
What says my Nephew to the Motion;  
The Youth was pleas'd, the Maid consented,  
All were rejoic'd, and all contented.

LONDON, MARCH 21.

It is expected that the present patriotic Ministry will shortly insist, in the most peremptory manner, on the French evacuating the Island of Corsica.

March 28. If the foreign prints tell truth, that the Genoese are constantly building ships of war for the French; and the French themselves, under pretence of being called in by the Genoese, to preserve their sovereignty over the island of Corsica, have cut down the timber on that island proper for building men of war, and constantly transported it from thence to Marseilles, or Toulon, and may continue to do so; where is the danger, impropriety, or injustice, for Britain to take these islanders under her protection, and prevent thereby the like evils for the future? The navies of France and Spain are daily increasing. The consequence is to be dreaded. If we have sixty or seventy sail of line of battle ships, they have more; the manning of them must be left to events, in themselves uncertain.

March 31. It is said a committee of the principal merchants trading to Portugal, will in a few days attend the levee of a great personage, on affairs of importance, relative to the present state of the British commerce in that kingdom.

They write from Petersburg, that a curious Experiment was lately made there, to ascertain the Difference between natural and artificial Cold; on the 5th of January, between nine and ten in the Morning, the Mercury in Delisle's Thermometer being at the 210th Degree, by the Application of Ice, it fell to 265, by that of Snow to 380, and by Aqua Fortis, to 473 Degrees.

Extract of a letter from Bath, Feb. 1.

—“You may talk of your Jonas in London, but we have at this Place a Gentleman from Devonshire, who performs a Feat very surprising without any flight of Hand. This Person gives the Company four or five Cards, on each of which is marked a Musical Chord, called the sympathetic Chord. You are to observe, that each Card has a different Chord wrote on it from any of the Rest. He then bids them take them to the other End of the Room, and change them in whatever Manner they please; he goes himself to a Harpsichord, and desires any one of the Company to touch one of those Cards, and he immediately places his Hands on the very Notes wrote on the Card, without knowing which is touched; this he does to every Card that is pitched upon, and desires any Master of Music to prove that he touches the right Notes, to satisfy the Company. There can be no Fraud in his Feat, because he leaves the Company to fix on the Card, and if they choose a Second, he changes his Hands to the different Notes wrote on that Card. The Masters here confess that the Thing is done, but cannot find out by what Means; some say that there is a magnetical Influence, but this is not clear. This Gentleman does not himself know one Note of Music, yet bets any Wager that he changes his Hands as they touch different Cards, and indeed seldom if ever fails.—Acquaint the Curious with this ingenious Discovery, which is founded on the Mathematics.”

A Copy of a Letter (privately handed about at Paris) said to be written by the King of Prussia to his Most Christian Majesty.

“Sir my Brother,

“As a Friend and Ally of the Republic of Geneva, it is impossible for me to look with Indifference on the distressful Situation of a People demanding my Protection, not alone as Christians, but as Protestants.

“In Quality of a Mediator of their Differences, you cannot possibly have a Right to abridge the Freedom of a State, which small as it is, never surrendered its Liberties; nor can you be justified in over-running a Constitution, whose Continuance you have guaranteed.

“It behoves me therefore as a Monarch, and as a Christian and Protestant (with the suffering Genevans) to expect and require of you to relinquish a Measure so derogatory to your Glory, as that of besieging and oppressing this unhappy Republic.

“But in Case you refuse to comply with this reasonable Requisition, (which, I trust, would, be an unpardonable Insult, on your Prudence and Humanity to imagine) all Europe must witness, that you alone will be to blame for the Consequences that may follow. I am, Sir, your Brother, &c. &c.

Leeds, Jan. 20. We hear from Pontefract, that the Magistrates of that Town, were to have had a Mayor's Feast next Week, towards which the Sum of twelve Guineas is appropriated; but they have humanely agreed to give the Money to the Poor at this inclement Season. The Mayor having added three Guineas to it, and the Alderman two Guineas a-piece. And on Thursday Mr. Alderman Perce, and the Reverend Mr. Sturdy, the Vicar, opened a Subscription, which, with the above Sums, soon amounted to upwards of 70l. and on Saturday purchased a Quantity of Corn, which they intend to distribute among the necessitous Poor.

Kilkenny, Jan. 24. On Christmas Eve, about four Miles from the Town of Waterford, a barbarous Murder was committed on the Bodies of a Widow Woman, and her five grown-up Children; their House set on Fire, and burnt to the Ground, by Persons unknown, after whom strict Search is now making, but hitherto without any Effect.”

PENSACOLA, (in West-Florida) April 5.

House of Assembly, Friday 3d of April, 1767. Report of a committee of the whole house appointed to take the present state of the government of this province into consideration.

1st. RESOLVED, That the house will on all occasions, support and maintain his Honour the Lieut Governor's administration, in conformity to his Majesty's intentions, and that they will, as far as in them lies, endeavour to render them easy, happy and honourable to him; and that they will at all times maintain the just prerogative of the Crown, as well as the rights and liberties of the people.

2d. RESOLVED, That the pretending or attempting to exercise the government of this province, or the issuing proclamations or orders in the name of the Governor, without the Advice and consent of his Majesty's Council, is contrary to his most gracious Majesty's royal instructions, and a dangerous and unwarrantable innovation in the constitution.

3d. RESOLVED, That the obliging the Members of the Assembly to meet at the expiration of every prorogation, when the public business does not require it, is attended with many inconveniences, besides giving unnecessary trouble to the Members.

4th. RESOLVED, That these irregularities seem to proceed from his Honour the Lieutenant Governor's being advised thereto, by some weak or evil disposed persons.

5th. RESOLVED, That whatever person or persons have advised his Honour the Lieutenant Governor to exercise the civil government of this province, without the aid, advice, and assistance of his Majesty's Council, are enemies to his Majesty, to his Honour the Lieutenant Governor, to the Constitution, and to the Laws and liberties of the people.

6th. RESOLVED, That such persons, are endeavouring to innovate and alter the civil constitution established by his Majesty in this province, to alienate the minds of the people from his Honour's administration, to destroy public peace and harmony amongst us, and throw every thing into anarchy and confusion.

7th. RESOLVED, That his Honour the Lieutenant Governor be humbly requested to remove such persons from his presence, and that in conformity to his Majesty's instructions, he make choice of such able and discreet persons to fill up the vacancies in his Majesty's council, as are most capable to aid and assist him in his administration.

By Order of the Committee,

ALEXANDER MOORE, Chairman.

The House having resumed itself, it was Resolved, *Nem. Con.* That Mr. Speaker, do, in the name of the House, communicate to his Honour the Lieutenant Governor the foregoing Resolutions, when the House attend his Honour.

St. JOHN'S (in Antigua) April 22.

Yesterday the snow brothers, Thomas Looney, master, from the coast of Africa, with 260 slaves, by an accident took fire as he was riding at anchor in our harbour, immediately the boats belonging to the shipping put off to her assistance, all the Negroes, except one or two, were saved; but the ship blew up and afterwards was entirely consumed.

SAVANNAH, (in Georgia) April 29.

By a private letter from London we have advice, that fifteen Members of the House of Commons, and eight Lords, have become proprietors of lands in East-Florida.

SALEM, New-England, May 15.

By Capt. Thomas Lee, who arrived here Yesterday in 39 Days from Cadiz, we are informed of the following remarkable Event, viz. That about the Beginning of April last, a few Days before he sailed, the whole Fraternity of Jesuits were, by an Order from Court, expelled that City, in the following Manner. Parties of Soldiers were, without any previous Notice, placed before the Doors of all the Houses, Convents, &c. where any of that Society were supposed to be, in the Dead of Night, and continued there till next Night, when it was said the City was cleared of them. It is thought they were shipped to Italy. The common Report at Cadiz was, that all the Effects of these Fathers were confiscated, and that the abovementioned Orders were to be executed throughout the Kingdoms of Old and New Spain, the same Night.

NEWPORT, (Rhode-Island,) May 18.

The only Person saved out of the Ship Peggy, Capt. Fiske, of this Place, bound to London, whose Loss was lately mentioned, came to Town last Week, and informs, that a few Days before the Ship was lost, they took up 4 or 5 Men in a Boat, who belonged to a Vessel which foundered: That in a very few Minutes after the Peggy struck, which was off Portland, she beat to Pieces: and that he (our informant) with two others, the Sea running prodigious high, held to the Mainmast, but only himself was able to get ashore: And that a considerable Part of the Cargo, and also a large Sum of Money, belonging to the Crown, remitted Home from his Majesty's Custom-House in this Place, were saved.

Last Thursday, about 12 o'Clock, the House of Mr. Jonathan Sowle, of Tiverton, took Fire and was consumed. This Accident was occasioned by the boiling (in one of the Chimnies) a large Pot of Turpentine, which caught on Fire, instantly spread over the Floor of the House, and, by the Violence of the Explosion, shook down Part of the Chimney: The House was in Flames immediately; and so far from having Time to save the Effects which it contained, Mr. Sowle, had not an Opportunity of saving his Daughter, who lay sick in one of the Chambers, otherwise than by dropping her from a Window upon a Bed, which he previously threw out for her Reception; by which Means she was preserved; he then, being considerably burnt, jumped out himself. The House was consumed in about 20 Minutes; and, with the Loss of a considerable Sum in Cash, a Quantity of English Goods, &c. Mr. Sowle has suffered to the Amount of at least One Thousand Pounds, Lawful Money.

Capt. Bradfield, who arrived here last Week from Jamaica in 33 Days, brought in Capt. Robert Russell, and Mr. Scott, of that Island, with several others, to the Number of five, besides four Negroes, who belonged to the Sloop Dove, bound from Jamaica to Georgia, was cast away, the 16th of April, on the Collaradoes, off the West End of Cuba, where the Vessel and Cargo were lost: the next Day the Men arrived in their Boat at Cape Antonio, 14 Leagues from where the Sloop was lost; and on the 20th, Bradfield appearing in Sight, took them all on board.

Our last Advices from Europe are, that Great-Britain, France, Spain, Portugal, Prussia, Russia, and Holland, are making great Military Preparations, which indicates a Rupture among some of the European Powers.—That it is expected many fresh Troubles will arise in Poland on Account of the Protestants.—That, if the affairs of Geneva are not amicably settled, very speedily, to mutual Satisfaction, which some think has already been done, Protestant Powers will interpose in Behalf of the Liberties of that Republic.—That the brave Corsicans continue inflexible in their Resolution of freeing their Country from Genoese Tyranny.—That there is a powerful French Faction in Portugal, which impede a proper Adjustment of the Differences between that Court and Great-Britain.—And that party Animosities run very high among the Great in England, inasmuch that the Interest of the Nation seems to be almost forgot amidst the Struggles of Power and Place.

PHILADELPHIA, MAY 21.

Extract of a Letter from Capt. Coburne, of the Ship Hannah, of this Port, dated Leghorn, March 5, 1767.

“I am just arrived here after an excessive bad Passage. On the Second of January we met with the hardest Gale of Wind that I ever was in, which lasted four Days, and blew so violent, that our Ship was under Water all the while, and obliged us to keep both Pumps going, till we were all as raw as if we had been skinned; but the Water still gained on us, till we had nine Feet in her Hold, so that we were forced to cut away, and throw overboard, every thing we could, in order to save our Lives as long as possible on the Wreck. However, it pleased God to abate the Gale, and we, being overjoyed to see good Weather again, the Ship having the same Depth of Water in the Hold, fell heartily to pumping, tho' almost dead, and were seven Days before we could clear and fit her, so as to make any Sail. Upon the whole our Ship is a mere Wreck.”

This is thought to be the Vessel Captain Lambton met with in Distress, mentioned in this Paper a few Days ago. Capt. M'Caddon, from Londonderry, on the 14th of April, in Lat. 47, Long. 36, spoke a Brig from New-York, for Dublin, out 24 Days, all well, but the Sea ran so high he could not learn the Master's Name.—25th, in Lat. 38, Long. 42, spoke the Brig General Conway, belonging to New-York, from the Bay of Honduras for Amsterdam, out 34 Days.—On the 9th Instant, in Lat. 38, Long. 66, he spoke a Schooner from St. Croix for Boston, 18 Days out. And the next Day, in Lat. 38: 30, Long. 67, he spoke a Brig from Piscataqua for Jamaica, 8 Days out.

Capt. Tillet, from London, on the 26th of April, in Lat. 32, Long. 70, spoke a Ship from Charles-Town for Portsmouth out 5 Days.—30th, off Cape Hatteras, he spoke a Sloop from Edenton for Piscataqua; and the same Day he spoke a Ship from Ocracoke for Liverpool, both two Days out.

Capt. Hazelton, from Jamaica, the twenty first ult. fell in with Capt. Davidson for Bristol, who informed him, that the day before, he saw a sloop which he took to be New-England built, ashore on the Collaradoes, with her sails unbent and no person on board, but the breakers ran so high he could make no further discovery.

PHILADELPHIA, May 25.

Wednesday last the GENERAL ASSEMBLY of this Province adjourned to the 14th of September next. During their Sitting several Laws were passed, among which were the following, viz.

An Act for raising Twenty Thousand Pounds, for the Support of the Government of this Province, and Payment of the public Debts. An Act to amend the Act, intitled, “An Act for establishing Courts of Judicature within this Province.”

Extract of a Letter from Barbados, dated April 24, 1767. “About Seven o'Clock this Morning we had a Shock of an Earthquake, which lasted about a Minute, but did no Damage; about Fifteen Minutes after, the Sea on a sudden fell several Feet (being low Water) and left the Ground in the Dock bare, then rose again several Feet, so that the Water would have come over the Wharf, had not the Tide been out; immediately after, it fell so low as to leave the Boats dry on the Ground, and directly the Sea came tumbling in again with great Force, then rushed back with the same Rapidity, and continued ebbing and flowing in this Manner about Half an Hour. It is imagined, from these Appearances, that a dreadful Earthquake has happened in some Part of Europe, as the Earthquake at Lisbon occasioned the same Flux and Reflux of Water here, though it was not attended with an Earthquake.”

Extract of another letter from Barbados, dated April 24, 1767.

“About 7 o'Clock this morning, we had here a severe shock of an earthquake, which continued a full minute, but has done no damage, and shortly after succeeded by a flux and reflux of the water for about 20 minutes and more, and fell several different times eight or nine feet perpendicular, but did no damage, save overturning and filling several Boats lying at the wharfs.”

A few Days ago his Excellency William Franklin, Esq; Governor of New-Jersey, and his Lady, arrived in Town from Burlington; as did also the Lady and Daughter of his Excellency Sir Henry Moore, Bart. from New-York.

Yesterday Morning came into this Port, in Distress, having sprung a-leak at Sea, the Snow Christo de San Roman, Don Juan De Canas, Master, from Campeachy, bound for Cadiz, with a Cargo of Sugar, Indigo, &c. She had been out several Weeks. It is said she has on board a large Sum in Specie.

BOSTON, May 18.

Yesterday a Snow arrived here from Liverpool, from Midford, Master: By whom we have Prints of the 10th of April, which contain two or three London Articles later than before received, viz.

LONDON, April 7.

We hear bills of exchange to the amount of 70, sterling have within these few days been remitted to two capital houses in the city from Paris, for the use of several foreign Noblemen lately arrived in England.

Among other plans for the improvement of commerce, we hear, there is one to make the island of Bermuda a free port, in consequence of some late petitions laid before the Board of Trade and Plantations.

It is reported, that the Hon. Mr. Hay, our Envoy Extraordinary at the Court of Lisbon, has received orders to insist, in the most strenuous manner, on the immediate performance of every article lately sent in a memorial to the King of Portugal.

Another report is, that Rear Admiral Lord Colville is to take the command of a Squadron to be sent to the Tagus; and that his Lordship will also be invested with a commission of a very important nature to the Court of Lisbon.

We hear that new instructions have lately been sent over to his Majesty's Governors and Naval Commanders in the West-Indies, in consequence of the French having excluded his Majesty's subjects from carrying on certain branches of trade to any of their islands.

A Letter from a Gentleman in the upper Part of West-Chester County, to his Friend in New-York.

I WAS much pleased with a Letter 6 or 8 Weeks ago, published in the New-York Journal, relating to the Free-Bridge over Harlem River.—The Author's Observations and Arguments, are in my Opinion entirely just and conclusive.—Indeed, the Opinion of all that ever I heard speak upon the Subject, as well as my own, was before, the same as this Philadelphia Gentleman's, but he has set the Matter in a clearer and stronger Light than I view'd it before, at least his Letter has engaged me to consider it with more Attention than I believe I otherwise should have done—for as the old saying is, what is every Body's Business is no Body's Business; and tho' we all agreed that the Builders of the Free-Bridge at Harlem River, had done a very important piece of Service to their Country and the Public, upon the most generous and commendable Motives, at a very great private Expence to themselves, and that they ought to be amply reimbursed, for all their Expences and Trouble in building and maintaining the Bridge for so many Years;—tho' every Body agreed to all this, and thought that it ought to be done, yet, as is usual in such Cases, no Body undertook to do it, or shew'd much Concern about it.—And perhaps it might have remained as long a Time as the Toll-Bridge continued to be a grievance,—without Redress, had not some late Pieces in the public Papers, especially this Letter from Philadelphia, awakened Reflection,—(at least I may say, as to myself) and shown it to be not only reasonable, but an incumbent Duty upon the Inhabitants in general of this Province, in good earnest to stir in the Affair, and endeavour to obtain from the Legislature that Redress for these suffering Men, that they are every Way intitled to.—To this End I have concluded to use all my Interest in their Behalf, and also to desire you to publish this Letter, in Hopes that it may, on some People, have the same Effect, that the Letter from Philadelphia had upon me,—stir them up to be actively serviceable to the Sufferers, as well as to pity, and own the Justice of their Cause.—Besides I think it a Sort of Reproach to us, that Motives of Justice and Humanity should have a less powerful Effect upon us, than upon our Brethren in the neighbouring Colonies, and not raise the Petitioners, as warm and hearty Friends and Advocates in their own Country, of which they have deserved so well, as in the neighbouring Provinces.—No doubt it was by every one thought strange, and had an Appearance of Meanness, that the only Avenue by Land, to one of the principal Cities in America, the Metropolis of a Province, should subject Travellers to the Interruption, and the payment of a Toll, which must be often attended with Trouble and loss of Time.—But to those who reside in the Neighbourhood, and had frequent Occasions to cross the Bridge, this Toll amounted to a very considerable Tax, I am credibly informed, that to some, it was from 15 to £18 per Annum.—Notwithstanding the great Weight of this Burden, and the great Number of those that felt it, and thought it to be an unjust Imposition; yet, as no particular Persons consider'd themselves more concerned than others to undertake its Removal,—as it could not be accomplished without a greater Expence than middling People could well bear, nor without encountering the Displeasure, and Opposition of a powerful and wealthy Interest.—These Obstructions appeared so formidable, that none was to be found so hardy as to attempt their Removal; and for many Years the Public was subjected to an Imposition, of which, all complain'd, but none knew how to get rid of.—And for the same Causes, thus it might have remained for many Years longer,—or perhaps for ever, had not the Men (who now are Petitioners, for what I think they are intitled to from the Gratitude, Honour, and Justice of their Country) stood forth, and from a public Spiritdness very uncommon, and really surprising for Men in middling Circumstances, undertaken the building of a Free-Bridge, which with indefatigable Perseverance, they soon completed, and thereby entirely removed the Imposition of the Toll, and have ever since, for about 9 or 10 Years I think, maintained the said Bridge at a very great Expence to themselves,—so great, that in these hard Times, it cannot but be supposed, that being kept out of such a Sum, must be very sensibly felt, and perhaps may expose some of them to great Difficulties in their Domestic Affairs.—And is it consistent with Generosity, Honour and Justice, for us to leave these Men, by whom we have received such an important and singular Benefit, to suffer in their private Fortunes for the Expences they have been at in doing it?—I should be ashamed to think of it.—The Government would have had a most advantageous Bargain, if for the Payment of the Sum now petitioned for, the Toll might have been abolish'd, and the Free-Bridge erected and

maintained so many Years:—And shall not those who have done this Service to our Hands,—merely trusting to our Generosity and Justice, be paid all their Expences and reasonable Demands, as well as if they had made a formal Bargain before Hand? Let us ask ourselves, each of us, how we should desire and hope to be treated in such a Case? And what we should think, if our reasonable Requests were disregarded? Let us not then treat others in a Manner that must be very grievous to ourselves in their Circumstances.—These Men have, I am told, presented several Petitions, with a Number of Subscribers, each Time to recommend them, and that the procuring and presenting each of these have been attended with great Trouble, loss of Time and Expence.—I hope my Countrymen will no more make it necessary to repeat that Expence, nor subject them to the Mortification of a Disappointment.—And since the Petition is in itself so reasonable,—so agreeable to the general Sentiments of the Public, & may be granted so consistently with the Humanity, Generosity, Justice and Honour, of our Honourable Assembly, I hope it will be favourably heard, and granted without Obstruction or Difficulty.—For my own Part, (with some of my Friends) I shall use my utmost Influence with our two Representatives, to promote, and further the granting of the Petition, and I hope you will likewise, from the same Motive, exert yourself with your Friends, to influence your Members of the City, and others of your Acquaintance, to the same Conduct. I am, Sir, your humble Servant, I.

NEW-YORK, May 28.

On Tuesday (last Week) was held our Annual Commencement, at St. Paul's-Chapel, in this City. His Excellency the Governor, the Members of his Majesty's Council, the Clergy of the City and neighbouring Governments, and a very numerous and splendid Audience, honoured the Day with their presence.

The Procession was from the College to the Chapel.

THE Business of the Day began with solemn Prayer to Almighty God, suitable to the Occasion; and an elegant Latin Oration succeeded, by the Rev. Doctor COOPER, President of the College.

The salutatory Oration was delivered by Mr. Laight, whose graceful Action, and correct Manner of Expression, were justly admired by every Gentleman of Learning present.

To this succeeded an excellent Discourse, on the Usefulness of the Passions, by Mr. Jay, which for judicious Reasoning, and Elegance of Style, did great Honour to the Performer.

The next Performance was an English forensic Dispute, between Messrs. Jay and Harrison. Whether a Man ought to engage in War, without being persuaded of the Justice of his Cause? The masterly Sentiments that were exhibited on both Sides of the Question, entertained the Audience with particular Pleasure.

Next to this, Mr. Laight favoured the Assembly with a Discourse in Praise of a City Life, which for genteel Delivery, Argument, and Propriety of Language, gave much Satisfaction, to the polite Audience.

These Exercises being finished, the President conferred upon the following young Gentlemen, the Degree of Bachelor of Arts, viz. Messrs. Laight and Tyler. Also the Degree of Master of Arts, upon Messrs. Jay and Harrison; and upon Doctor Glenworth, the Rev. Messrs. Neill, Avery, and Inglis. The Rev. Mr. Ogilvie, was admitted ad eundem, A. M. from Yale-College. And the Rev. Samuel Auchmuty, and Thomas Bradbury Chandler, ad eundem, viz. D. from Oxford.

The Audience were now entertained with an English valedictory Oration, by Mr. Harrison, whose graceful Appearance and judicious Performance did him great Honour, and justly entitled him to general Applause.

The whole Ceremony concluded with solemn Prayers.

It would be unpardonable not to observe, that the Audience went away very much pleased with their Entertainment; the whole being conducted in the most decent and regular Manner.

Last Thursday Capt. Thompson arrived here in 20 Days from Monto, Chirillo: We have Advice, that the Trade between that Place and the French on Hispaniola, has lately had a severe Check put to it, from a Proclamation issued by the French General, prohibiting all communication with the Mount: Capt. Thompson left about 40 English Vessels there, many of whom would be obliged to leave the Place without their Load, only two of which belonged to New-York, Capt. Mercer, and another.

On Monday last, arrived in the Schooner Phæbe, Captain Provost, from Antigua in 17 Days, with whom came Passenger the Hon. JOSIAH MARTIN, Esq; and his Family; Captain Provost, says, that Capt. Scott, was to sail a Day or two after him, with whom is coming Passenger Col. MARTIN, of the 68th Regiment, with all his Family. That about 12 or 14 Days before he failed, a Snow from Africa, took Fire, and was consumed. One Slave was burnt, and several hung by the Ropes, in the Water, till they were relieved by the Ships Boats in the Harbour, all the Rest of the Slaves were saved.—Admiral Pye was obliged to slip his Cables, and get under sail to avoid the Fire from the Snow.—The Doctor was much hurt, (and no other Person) but was in a fair Way of Recovery

On Tuesday last came to Town from Boston, strongly ironed and guarded, the wretched Joseph Andrews, charged with being one of the Murderers of Capt. Duryee, his Company and Passengers.

On Tuesday last the General Assembly of this Province, met at the City-Hall.

Last Night the Mail to go by the Duke of Cumberland Packet, Capt. Goodrich, for Falmouth, was closed at the Post-Office.

HEREAS I Joseph Sackett, jun. late of Somerset-County, in the province of New-Jersey, Physician, by a certain Letter of Attorney under my Hand and Seal, bearing Date about 7 or 8 Months ago, did make, Ordain, Constitute and Appoint, Edmond Leslie of the same Place, Gentleman, my lawful Attorney, to dispose of Lands, and to Transact other Business in my behalf, in the said County and Province. I do hereby give Notice, that I have for divers good Causes and Considerations me thereunto moving, revoked and by these Presents, do utterly revoke, disannul and make void, said Letter of Attorney, and all Power and Authority, to him the said Edmond Leslie, therein given. Witness my Hand in Jamaica, Nassau-Island, 25th of May, 1767. JOSEPH SACKETT, jun.

L O N D O N, March 6.

IT is said that America is to be taxed to make good the deficiency of 500,000l. taken off the Land tax. And that the East-India company is to pay the million wanted to make good the deficiency of the Civil List and the settlement on the Royal Brothers.

March 7. The Romney man of war is commissioned, on board which ship Commodore Hood will hoist his broad pendant, and proceed as soon as possible to Halifax, in order to take upon him the command of all his Majesty's ships in North America. John Corner, Esq; is appointed the commodore's captain.

The council, held one day This week in Bond-street, it is said, broke up very abruptly, and, indeed almost in confusion; and it is particularly assured, that some late proceedings of two high officers, were most severely animadverted upon.

A late great failure in the city, it is feared will too soon be followed with farther consequent bankruptcies, through the great commercial connexions of the house which has so suddenly stopped payment.

It is said that our Governors in America are ordered, for the future, to send over (annually) the state and condition of the province over which they preside.

March 12. The differences & disputes amongst the great ones, at the west end of the town, it is now said are all happily compromised, on which account the expected changes in the ministry will not take place.

March 14. By a letter from Bath, dated March 11, we hear, that the celebrated Miss Kitty Fisher, arrived there in her way to Bristol on Monday last; she was taken speechless the next morning, and died in a few hours, at the Three Tuns in that city.

We are assured, that a letter was very lately written by a High Personage to a certain Patriot Nobleman, declarative of such confidence and support as to have silenced opposition, and brought about a tranquility among the Great, which was thought to be impracticable.

It is the reigning report, at the West end of the town, that we shall shortly see a new war break out in Germany between two powerful royal houses.

Notwithstanding the almost positive assertion in the papers to the contrary, it is strongly affirmed to us, a radical change in the administration will soon begin to take place, and that from the complexion of our intended new ministers, the hand that ushers them into office will be easily guessed at.

It is talked that the Earl of Chatham, having happily completed the important business which demanded his Lordship's presence in town, will in a few days, set out for Bath, for the benefit of his health.

March 24. They write from Genoa, that a Corsican Express had just arrived with Advice, that the Count de Marboeuf had broke up the Line which was formed last Summer, to prevent a Communication with Paoli's Troops, by which a free Intercourse had taken Place between the Malecontents and the French.

Letters from Amsterdam, by the last Dutch Mail mention that 2000 Tons of Cordage had lately been shipped at that Port for the Use of the French Marine at Toulon.

March 28. We hear that Paoli has entered into a negotiation with a certain great power; and it is expected he will soon take upon himself the title of King of Corsica.

March 30. It is talked, that Lord Chatham has a scheme for improving the Newfoundland cod-fisheries, by the establishment of a company to be conducted on a plan similar to that of the Shetland herring fishery, and to bring in half a million sterl. annually to the government.

March 31. We hear the regulations to be strictly observed this year by the French at Newfoundland are, that no vessel of their nation shall cast an anchor on any of the fishing banks frequented by the English while employed in catching cod, on pain of being condemned as legal prizes.

April 2. We are informed that the Right Hon. the Earl Temple has, within these few Days been offered a very considerable Post under the Government, which his Lordship declined accepting.

April 4. From the extraordinary respect paid a few days ago to a Corsican Courier at the Hague, it is generally conjectured that Paoli himself was treated with by the states, in the disguise of that character.

They write from Gibraltar, that the Emperor of Morocco was making extraordinary warlike Preparations in all his Ports, being apprehensive of an Invasion from a certain Christian Power.

THE LIQUID TRUE BLUE, to be sold, at the Printing-Office at the Exchange, with Directions.—Price Three Shillings.

# SUPPLEMENT

TO

## NEW-YORK JOURNAL;

OR, GENERAL ADVERTISER.

[THURSDAY, MAY 28, 1767.]

[NUMB. 1273.]

L O N D O N, March 10.

It is very confidently asserted that Spain & the Empire of Morocco have concluded an offensive treaty of union against the Regency of Algier; in consequence of which, the Emperor of Morocco, at the head of a numerous army (to be maintained at the expence of his Catholic Majesty) is to march to Algier, to invest and besiege it on the land-side, whilst twenty-two Spanish ships of the line, as many xebecs, and two bomb-ketches, block up and bombard the port: and it is said that orders relative to this grand event have been already sent to Ferrol and Carthage, and to all the Spanish colonies in America.

March 12. It is reported, that a great man in the Administration has strongly enforced the expediency of Great-Britain's maintaining the Corsican nation in their independency, and that even the Ministers of two foreign Powers have made some late applications to our Court in their favour.

April 4. A Letter from Hamburgh, dated March 24, says, "The speedy Arrival of 15 or 16000 Russian Troops in Poland is no longer to be doubted. We are even assured from good Hands that the Court of Peterbourg has set forth the Motive for sending them in a Declaration lately sent to Warsaw on this subject. These Forces are to support the confederacy which the Dissidents are going to form. It is to be presumed that the other side will not sleep; and therefore we are apprehensive that the public Tranquility is going to be disturbed in Poland and Lithuania, unless some concessions are made by both parties.

March 7. It is said, in order to carry his plan of operations into execution with the greater effect, that the E. of C. will be appointed first Lord of the Treasury. Others again say, that he will resign in a few days.

The misunderstanding between our court and that of Lisbon, is far from being adjusted; and it is expected Mr. Hay, our minister there, will speedily be recalled.

This day the Right Hon. Charles Townshend resigned his place of Chancellor of the Exchequer. A Nobleman at Paris asked Lady R———why it was in general remarked abroad by foreigners, that the Scotch, who travelled, were men of parts and learning, while the English were generally wanting in both? Her Ladyship, with her usual vivacity, replied, that only fools went out of England; but for Scotland, none but fools would stay in it. A Scotch Nobleman, neither famous for parts or learning, Lord———, observed her Ladyship was right with regard to the Scotch; for, says he, there are offices established in Scotland where every Scotchman must apply for a passport ere he can leave the country, and previous to the granting thereof, he is examined with regard to his intellects and education, which, should they not arrive to the standard fixed for each, no passport is granted, but he is sent back for improvement; on a second application, the same form is observed; but should he apply a third time, and then be found wanting, he is remanded back for life. By this, says his Lordship, your Ladyship will plainly see none but men of sense and learning can legally leave this country. "Then, replied her Ladyship, I am sure your Lordship was smuggled."

CHARLES-TOWN, (S. Carolina) April 27.

By an Act passed the 18th Instant, the following Duties on Goods imported into this Province, are taken off for 2 Years, provided Security be given to export the said Goods within 6 Months, viz.

On every Barrel of Pork £.2.—Of Beef 10s.  
On every £.100 value of Timber, Planks, Boards, Staves, Shingles, or other Lumber £.20.  
On every Deer Skin 6d. every Barrel of Pitch, Tar or Turpentine 10s.

On every Pound of Indigo 1s.

'Tis scarce credible, what Advantage will accrue to the Trade and Commerce of this Province, by the judicious Discontinuance of the above imposts, besides the Employment it will afford to our numerous Coasters during the Summer.

On the 21st Instant, John Stuart, Esq; Superintendent of Indian Affairs, set out for Augusta, to meet some Cherokee Chiefs, and transact such other Business as he has received in Charge from his Majesty.

On the 22d, The Right Hon. Lord HOPE, after having made the Tour of America, sail'd for England, in the Ship Little Carpenter, Captain Maitland.—Before his Departure his Lordship was pleased to present to the Charles-Town Library Society, a small but well chosen Collection of Books, consisting of near 200 Volumes.

PHILADELPHIA, May 14.

We hear the French settlers at St. Lucia, manufactured last year 4000 hogheads of Muscovada sugar, 3000 hogheads of Molasses, and 1100 hogheads of rum, the latter chiefly exported to Africa, for the purchase of slaves, where it is said, the French carry on a very considerable trade.

By Capt. Hazelwood, from St. Croix, we learn, that Capt. Harmand in a brig from Boston, arrived there the 16th ult. and a Schooner from New-York was also arrived, her Cargo a little damaged: That Captain Leightburn, for New-York, was to sail about the 26th, as were also the Capt. Robinson and Gillis, for this Port: And that the Sloop——, late commanded by Capt. Bolitho, was to sail from Tortola about the 19th ult. for this Place.

Both by private Letters and the London Prints, we have intimation of the Failure in London, of Hagan and Comp. and another great House there, who were the chief Contractors for most of the Ship-loads of Wheat, that have gone lately from Philadelphia, Maryland, and this City; by Reason of which we are assured many Merchants in these Parts will probably be great Sufferers, especially if the Markets should turn out but low, which by all Appearance will be really the Case.

Monday last Week, Capt. Richards arrived here from Leghorn, which Place he left the 5th of March and says, that Capt. Appowen, in a Snow belonging to Philadelphia, sailed from that Place for Madeira, the 27th of January; and that Capt. Deshon, in a New-London Brig also sailed from the same Place for Gibraltar the 20th of February: That the Bay of Leghorn was never known to contain such a Number of Vessels as was there when Capt. Richards arrived, and that many of them were obliged, to keep their Cargoes on board for Want of Stores.

At Isaac Blank's, Shoemaker, Ferry-Street.

Province of New-Jersey, December 3, 1766.

**WHEREAS** a Law was passed in New-Jersey the 20th of June 1765, appointing Commissioners to run out straight public Roads through said Province, between New-York and Philadelphia, and empowering them to raise a Sum of Money by a public Lottery, not exceeding £.500, towards defraying the Charge thereof; accordingly a Lottery was thereupon soon after set on Foot, but from the troubled State of Affairs at that Time, occasioned by the Stamp Act, the Proceedings of the said Lottery were delayed; but as it is apprehended that the salutary Purpose might now be effected, the Managers therein appointed have thought fit for that End, to revive the following Scheme of a Lottery, to consist of 2222 Tickets, at 4 Dollars each; 662 of which are to be fortunate as follows:

1	Prize of Dollars, 750	is Dollars, 750
1	500	500
1	250	250
1	200	200
3	100	300
6	50	300
12	40	480
20	30	600
30	20	600
100	10	1000
485	8	3880
1 first Drawn	14	14
1 last Drawn	14	14

662 Prizes, 1560 Blanks, 2222 Tickets, at 4 Dollars each, are 8888 £.3333

From which a Deduction of 15 per Cent. is £.499 19 0: The fortunate Numbers are to be printed in the N. York and Pennsylvania Papers, as soon as possible after the Drawing, which will be directed by John Stevens, James Parker of Perth-Amboy; John Wetherill of the Townships of New Brunswick; Daniel Ellis of Burlington, and John Edwards of Bordentown, who are appointed Managers and Commissioners for the Road leading from the Ferry-house, opposite Perth-Amboy, to Burlington; and John Berrien, of Rocky-hill; Daniel Coxe, of Trenton; Azariah Dunham, of N. Brunswick; Ephraim Terrill, & Abraham Clark, jun. of Elizabeth-Town, who are likewise appointed Managers, and Commissioners for the Road leading from Newark and Elizabeth-Town, to Trenton and Bordentown agreeable to said Act; and are to be under Oath for the due and impartial Performance of their Duties.

The shortening and improving the public Roads through this Province, will be a great Advantage to the commercial Interest and general Convenience of the Inhabitants thereof, as well as a very general Advantage to the Neighbouring Provinces, particularly to Pennsylvania and New-York; and as it is the first Thing of the Kind that has been attempted on the Continent, it is not doubted but every public spirited Person in this, as well as the Neighbouring Provinces, will generously contribute to an Undertaking, tending so greatly to the Advantage and Ease of Men of Business and Pleasure; as it is judged the Distance between New York and Philadelphia will be shortened 12 or 15 Miles, and the Roads all made more passable and convenient for Travellers in the Winter Season than the Present.

Tickets are to be had of Daniel Ellis of Burlington, Daniel Coxe of Trenton, James Parker of Perth-Amboy, and Abraham Clark, jun. of Elizabeth-Town, and of all the other Managers in Jersey, at their respective Dwellings.

Just imported a large Assortment of Goods, suitable for the Spring and Summer; and to be sold Wholesale and Retail,
